as the party goes going or winds down. Inside, the modern life accessories begin to surface. The DVD player, the flat-screen, the party room, indeed, Aqua is built for entertaining and partying.

The villa comes fully equipped and fully serviced by its extensive crew of staff, but being just around the corner from some of Seminyak's hottest spots like Kudus, Ha'u Bar and Restaurant, The Seminyak Breeze restaurant, and Eats Street (Alan Laksmas), in reality, there isn't much need for them. Maybe they could come in handy making breakfast, though, but, they are there for your every need 24 hours a day. The beach isn't far away, either. Actually, nothing's too far away from this villa for the upwardly mobile set that would be ideally positioned in this prized villa and location.

Rental villas, of course, should always be built for entertaining and Aqua has that premise totally covered in all ways. From the swimming pool and spa area to the stylish condition and facilities of the interior, Aqua is another standard setting villa for the Seminyak area.

G fish have been up to their usual, consensus tricks with the new state of the art, four bedroom villa named Aqua in fashionable Oberoi, Seminyak. Water is the theme in this appropriately named rental villa with a large, central swimming pool dominating the expansive outdoor indoor living design. Fish are well known for stylish modern designs with fine roots and clean, straight lines and are continuing to put their stamp on many new designs in Bali. The 23 meter pool is the central focus in this spacious and stylish villa with all bedrooms and living areas looking towards it. Aqua could be called the perfect Seminyak villa; it's built for visitors who like to entertain, party and take time off in the chill-out areas.

Gary Fell, the architect, has incorporated an abundance of room in the design for enjoying the outdoor/indoor experience; the experience that most modern visitors to Bali are seeking. The sunken lounge area and dining pavilion at the entrance provide the main covered living area beside the pool. The space is ideal for hanging out, dining, cooking and chatting with friends. Four cabanas, in a modern translation of the local Balinese; Balu style, are set on the opposite side of the pool with a central Jacuzzi providing the option of a plunge in the pool or a soak in the warm tub—more great choices for the discerning traveler. All around the garden area there are plushly-cushioned nooks and crannies for guests to take a rest or another sip on their daily Moët & Chandon

specific views through the kitchen and dining area that face the swimming pool (opposite page) this area is the focal point of the villa and leads over to the jacuzzi and hot tub on the opposite side (above) and still will enjoy around the garden (above right) pool table in the entertainment room
